INTRODUCTION

Congratulations on your purchase of the Component Audio to HDMI Adapter Model USG260H.

The Component Audio to HDMI™ Adapter is a unique device that allows older analog devices to be integrated seamlessly into the modern home theater. This adapter connects component video home theater devices to HDMI™ compliant digital monitors. This adapter also takes analog L+R audio and encodes it onto the HDMI signal for the full HDMI video and audio effect. With the Component Audio to HDMI Adapter legacy home theater devices and computer systems can be easily connected any HDMI display for the full digital video and audio experience.

How It Works

Simply connect the supplied Component cable to the input side of the Component Audio to HDMI™ Adapter. Then connect the RCA audio cables to the audio inputs of the Component Audio to HDMI Adapter. Then connect the HDMI display or projector to the HDMI output of the Component Audio to HDMI Adapter. The adapter generates the compatible analog to digital conversion signals for video and audio as well encoding the audio onto the HDMI to make the connection between the analog inputs and the digital output work.

FEATURES

Features

- Allows you to connect YPbPr HDTV sources to an HDMI™ display
- Encodes analog audio onto the video signal for HDMI™ video and audio
- Supports HDTV resolution up to 1080p
- HDMI™ compliant

Includes:

- (1) Component Video to HDMI Adapter
- (1) 5V Power Supply
- (1) 6 ft RCA L+R Audio Cable
- (1) 6 ft 3 RCA Cable
- (1) Users Manual

CONNECTING AND OPERATING THE COMPONENT TO HDMI ADAPTER

How to Connect the Component Audio to HDMI Adapter

- 1- Connect your HDMI compliant monitor to the HDMI female connector at the output side of the Component Audio to HDMI Adapter.
- 2- Connect the Component cable between Component Audio to HDMI Adapter and the Component output of your device.
- 3- Connect the RCA L+R Audio Cable between the audio inputs on the Component Audio to HDMI Adapter and the Audio output on your device.
- 4- Connect the 5V power supply.

SPECIFICATIONS

HDMI Video Amplifier Bandwidth.....	1.65 Gbps
Video Amplifier Bandwidth.....	350 Mhz
Input Video Signal.....	1.2 volts p-p
Input DDC Signal.....	5 volts p-p (TTL)
HDMI Connector.....	type A (19 pin) female
Video In.....	3 RCA component
Audio Connector.....	analog RCA L+R
Power Consumption.....	10 watts (max)
Power Supply.....	5V DC
Dimensions.....	4"W x 1"H x 4"D
Shipping Weight.....	2 lbs.
